Professional Summary

I have a good understanding of FastAPI, React, and system design and architecture. My interest lies in web development, backend engineering, and system design that actually benefits the company and its users. For me, every project is an opportunity to learn, grow, and generate revenue for my organization.

Experience

Travela (Expert Travel and Tourism Ltd.)

July 2026 - Present

Software Engineer

Dhanmondi, Dhaka

- Design and ship product features end to end, with React on the front end and FastAPI on the back end.
- Lead developer on Social CRM, a shared inbox for 34,000+ users across Facebook, WhatsApp and Instagram.
- Built its agent mode, where an LLM agent answers guest questions, shows listings, generates payment links and confirms bookings from chat. Human mode hands the thread to a support agent. FastAPI with MongoDB and UI with React.
- Build and maintain core backend services for the Travela app using FastAPI and MySQL.

DataCrata

July 2025 - Present

Full Stack Engineer

Remote

- Build FastAPI backends and React front ends, and integrate LLM providers into existing applications.
- Implement retrieval-augmented generation (RAG) pipelines and agent-based workflows, and evaluate model output with LangSmith to catch regressions before release.

Coder Orbit

July 2024 - March 2025

Junior Software Engineer

Mirpur, Dhaka

- Built front-end features for Coder Orbit API Service using Vue.js, Nuxt.js and Next.js on Laravel.
- Tested REST endpoints in Postman and wrote the developer-facing API documentation.

Projects

Pageling

2026

Web Application / Agentic Service

Private repository

- Turns a PDF into an embeddable chatbot: upload a file, get a widget token, add a script to any site.

RoBERTa-SAN for Text Classification

2024

Deep Learning / Research

[GitHub](#)

- Hybrid transformer architecture proposed and implemented by our team for Bangla text classification.

Image Search by Text Prompt using CLIP

2024

Python Application / Computer Vision

[GitHub](#)

- Encodes prompts and images with CLIP, then ranks images by cosine similarity and returns top matches.

Technical Skills

- **Languages and Databases:** Python, JavaScript (ES6), SQL, MySQL, MongoDB
- **Backend and Frontend:** FastAPI, REST API design, Streamlit, React, Next.js, Vue.js, Nuxt.js, Tailwind CSS
- **AI and Tools:** LangChain, LangSmith, retrieval-augmented generation (RAG), OpenAI API, Git, GitHub, Postman, DataGrip, Kaggle Notebooks
- **Spoken Languages:** Bangla (native), English (full professional proficiency)

Education

Green University of Bangladesh

2020 - 2024

B.Sc. in Computer Science and Engineering, CGPA 3.30/4.00; Dean's Award, Fall 2020

Dhaka, Bangladesh
